THE ART OF BLENDING IN!

OMEGA II FENCE SYSTEMS

THE ART OF BLENDING IN!

Omega II is the "original" North American manufacturer who in 1992, introduced to the market a fresh new style of fencing systems. Since then, we can count thousands of projects enhancing the image of landscaping projects throughout North America and beyond.

At Omega II we dedicate our efforts to building the best fence possible at an affordable price for industrial, commercial, residential and custom designs. Having no top rail to support panels, we offer a clean view. Our goal is to successfully integrate beauty and unobtrusive strength to produce the ideal fence for any situation, allowing your image to shine through the fence while deterring even the most motivated trespasser.

We strive to improve security while offering a valued experience to all our customers allowing them to enjoy their surroundings with a fence blending with the environment.

SINGLE WIRE FENCE SYSTEM

- Distinctive unique design
- Strong, resistant panels
- Virtually unclimbable
- Nonobstructive view
- Appealing reinforcing folds
- Lightens appearance

DOUBLE WIRE FENCE SYSTEM

- Urban modern look
- Double wires resist vandalism
- Extremely difficult to cut and climb
- See-through panels
- Aesthetic, clean lines
- Sleek panels without bulkiness
