

## Portable Fence Enclosures

- Permanent or temporary security
- Ideal for remote, limited access or difficult to excavate sites

## Applications

---

### Oilfield

Well heads, tanks, valves, meter stations, etc.

### Construction

Hoarding excavations, equipment and material storage.

### Other

Garden centers, temporary sales areas, transformers and substations

## Free standing

---

Easily and quickly installed. Completely re-useable and can be enlarged with additional panels.

Panels are simply clamped together and when formed in a four sided enclosure develop a rigid security fence.
